(10) Combining Aggregate functions

- write a SQL query to find the department with the highest average salary

```
select department, avg(salary) as highest_Average_Sal
    from employees
    group by department
    order by highest average salary desc;
```

Department	highest_Ave_salary
finance	59500
IT	55000
marketing	52500
HR	49500
